ACO PASSAVANT

## ACO's Grease Level Sensor

### To suit EcoJet above ground grease separator

ACO's EcoJet above ground grease separators are available with an optional grease level sensor to alert the user when the maximum grease level has been reached.

The device eliminates the need for increasing the ceiling height to accommodate a traditional measuring stick and provides an automated solution enabling a compact building design.

- Grease monitor shows grease level depth with red LED light display. Light indicates when the separator has reached full grease capacity.
- Can be fitted retrospectively to EcoJet grease separators.
- Lightweight for easy transport and installation.
- Easy assembly.
- Sydney Water approved. Other water authorities pending approval.

### Parts Table

Part No.	Description	Capacity (L)
<b>EcoJet Accessory</b>		
142290	ACO EcoJet grease level sensor	N/A
<b>EcoJet Models</b>		
142088	EcoJet NS 3	630
142089	EcoJet NS 4	830
142090	EcoJet NS 5.5	1430
142091	EcoJet NS 7	1600
142093	EcoJet NS 10	2000
