## NOTES:

1. These details only provide a practical reference. ACO recommends designers and installers check local legislative standards and practices, or seek specialised engineering advice.

## Specification Clause

For adequately reinforced concrete slabs, the grease separator shall be ACO Passavant, Lipumax-P below ground grease separator. The grease separator shall be supplied with a Rhinocast® Class D 210 kN (AS 3996) cover and reinforced concrete collar, (part number 142099) and installed in an engineered slab detail.

Grease separator shall be supplied and manufactured by ACO and installed in accordance with local codes and Standards.

The grease separator shall be manufactured in accordance with EN 1825 from polyethylene. The design shall feature a rib-structure to key into concrete and manufactured in one piece. The effluent quality must comply with EN 1825.
